2. Ensuring that each person and family are engaged as partners in their care.	Consumer Engagement
3. Promoting effective communication & coordination of care.	Quality Improvement
4. Promoting the most effective prevention & treatment practices for the leading causes of mortality.	Quality Improvement Public reporting/performance measurement
5. Working with communities to promote wide use of best practices to enable healthy living.	Quality Improvement Public Reporting/performance measurement
6. Making quality care more affordable by developing & spreading new health care delivery models.	Payment Reform Quality Improvement

New Mexico Coalition for Healthcare Quality

Our vision is to establish a sustainable, balanced, accountable and equitable health care system in the community by achieving the “triple aim” (better care, affordable care, healthy community).

We are working to improve the quality and efficiency of health care to reduce costs.

Pillars of Transformation

**Better Health (Healthier Communities)
and Better Care with Lower Costs**

**Performance Measurement/
Public Reporting (Transparency)**

**Ambulatory and Inpatient
Quality Improvement**

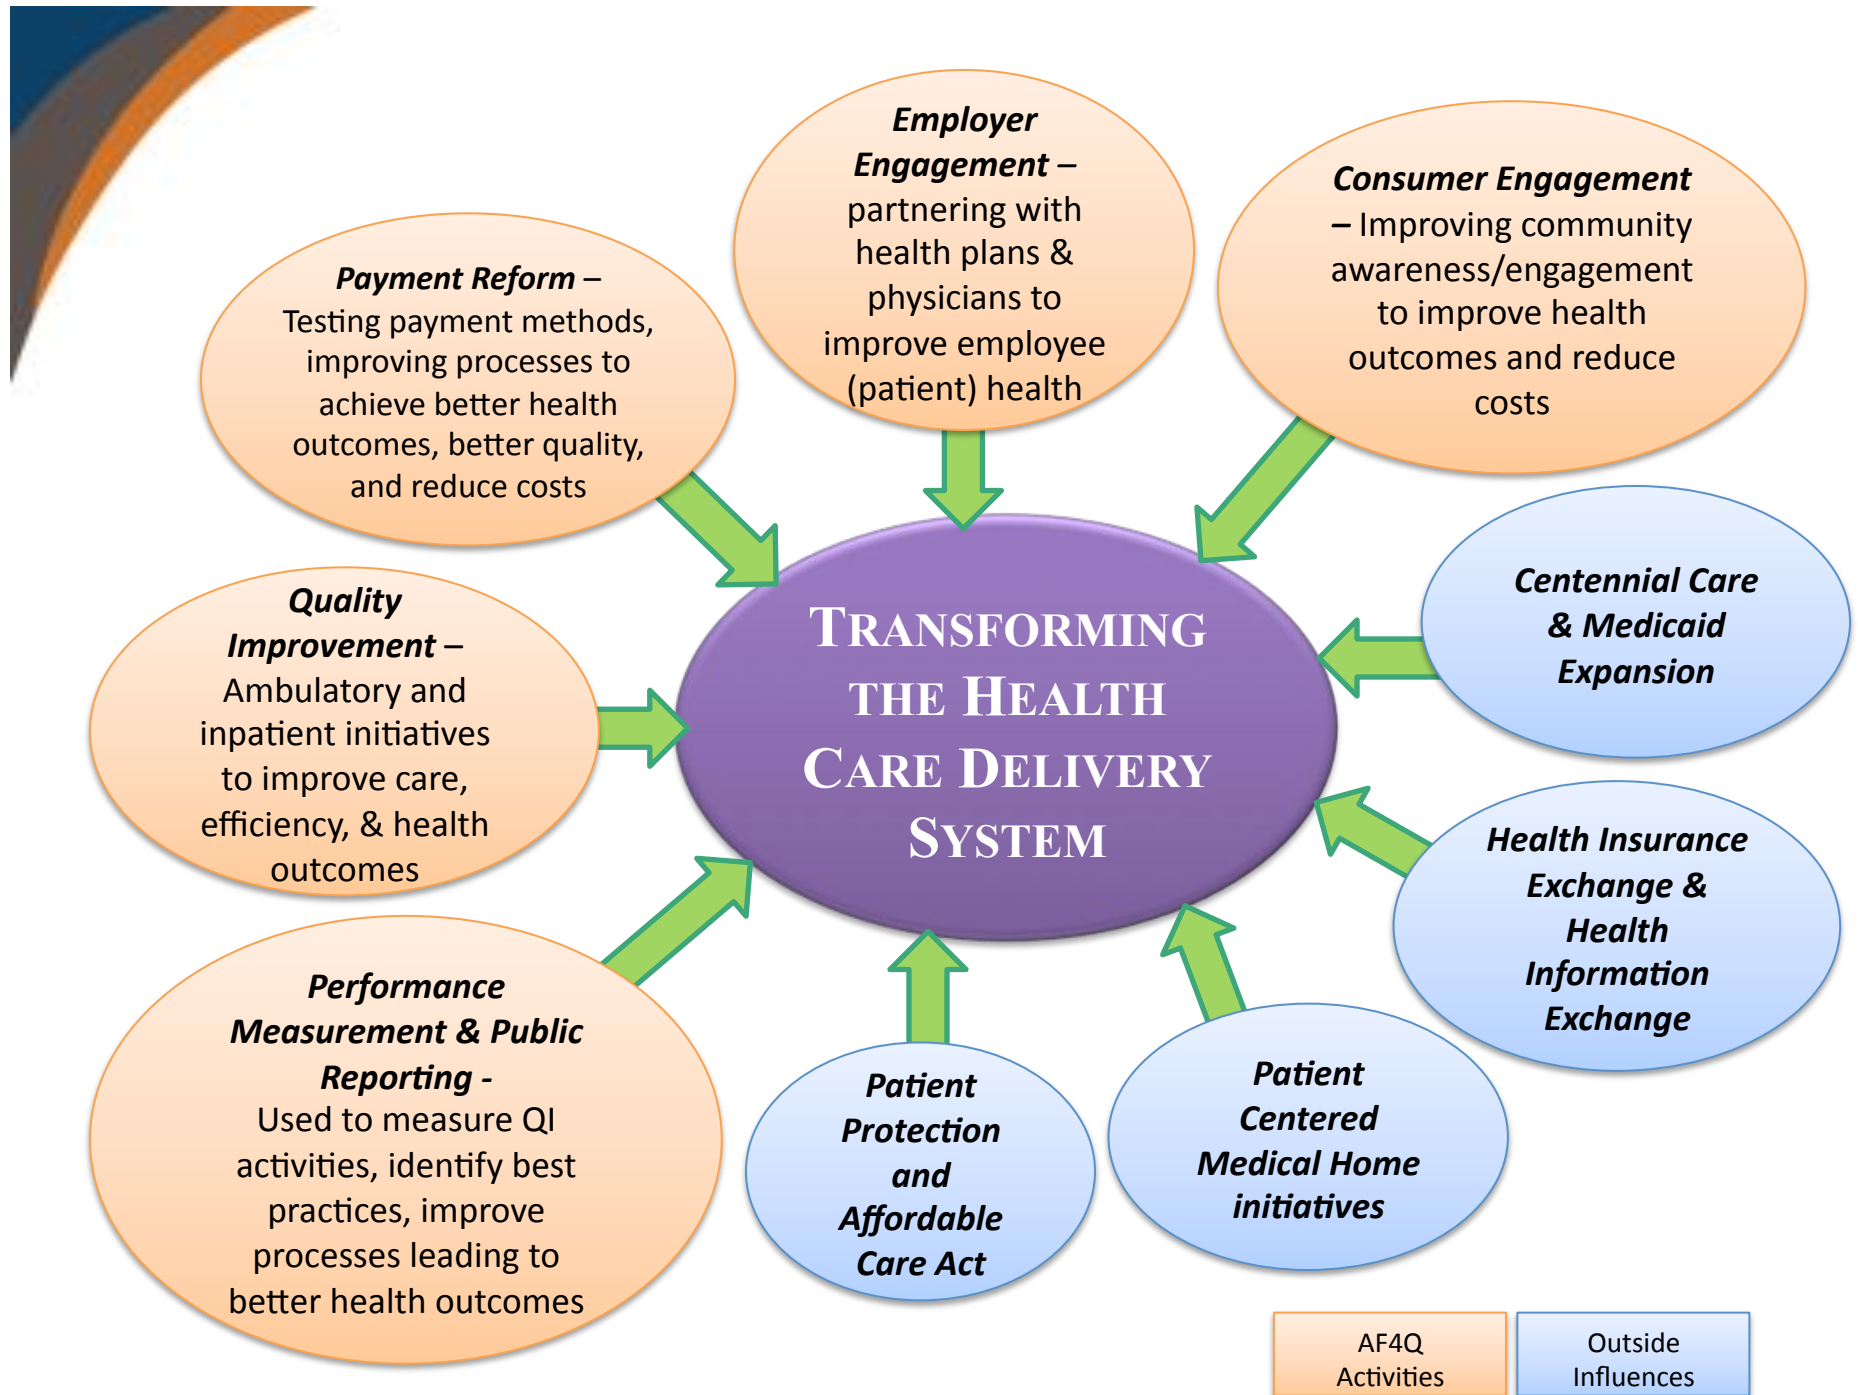

**Community and Consumer
Engagement**

Improving Health & Health Care in
Communities Across New Mexico

The New Mexico Coalition's Work

- Funded through April 2015
- Only neutral organization in NM aligning efforts to create:
 - More efficiency
 - Connections between other similar initiatives and focus areas
 - More transparency
 - Alignment of efforts across the community
 - Less duplication of efforts

Public Reporting of Performance

- Annual public reports on medical group performance provided on public website
 - Side-by-side comparisons of medical groups
 - Trending information both hospital performance and medical group performance on public reporting website
- DIABETES MEASURES (among others)

www.abqhealthcarequality.org

Payment Reform

- Moving forward with payment reform pilots to test new payment methods and transform the delivery system to improve quality and reduce costs
 - Aligning Medicaid and commercial payers
- Payment Reform efforts achieving significant progress in first year of three year pilot
 - Work aligns with Medicaid
 - Opportunity to align public and private payers across the state
 - Presbyterian and Molina participating

Business Health Advisory Group

- Created dialogue between multi-stakeholders that do not regularly come together in this environment
- Beginning to look at health care costs for the community
 - Identified top five cost drivers and associated utilization
 - Helping identify areas of focus for benefit design, partnerships between employers and health plans, and delivery system interventions

Value Based Purchasing for Employers

- 2014 – Piloting Value Based Purchasing Curriculum for Employers
- 1 to 1 ½ day program from National Business Health Coalition
- Provided by Robert Wood Johnson Foundation, George Washington University and the *Aligning Forces for Quality* initiative

Working Together = Successful Transformation

- Together we can **transform** the health care system into a high quality, efficient system that has improved health outcomes and reduced health care costs
- Together we can impact and improve population health.

The time is now for our community and state

- We are **leading** these transformational efforts
- We are **spreading** this work statewide before it becomes state or federally mandated
- We are a **pioneer** and example for other similar communities, states

The Future

Pulling the correct
levers to successfully
connect
health care
and
population health

Let's Work Together

- Everyone has a role.
- Everyone needs to be involved.
- We can align our work to make the transformation happen now.

***Together we can transform
our health care system for the better!***

Will you join us in this transformation?

Working together,
leveraging our
collective efforts, can
transform the system
quicker and more
effectively.

*Let's identify how we can partner
and align our efforts.*
